

```
const fadeElements =  
document.querySelectorAll(".fade-in");  
  
window.addEventListener("scroll", () => {  
  
    fadeElements.forEach((element) => {  
  
        const position =  
element.getBoundingClientRect().top;  
        const screenPosition =  
window.innerHeight / 1.3;  
  
        if(position < screenPosition){  
            element.classList.add("show");  
        }  
  
    });  
  
});
```
